# MISSION

The SOPMOD Program Management Office at NSWC Crane, IN, will provide standardized, versatile weapons accessories to meet needs across SOF mission scenarios. These accessories will increase operator survivability and lethality by enhanced weapon performance, target acquisition, signature suppression, and fire control. SOPMOD PMO will provide these accessories when they are operationally suitable, affordable, sustainable, and funded.

# HISTORIC BACKGROUND

- 1970-1990, Duct tape and hose clamps for carbine and rifle accessories. Multitude of non-standard optical sights, flashlights, etc.
- SOST Modular Close Combat Carbine Project, funded Sept 1989
- SOPMOD MNS, 15 May 1992
- BOIP's were originally low, since component commands were cautious about buy-in to a new joint program
- Original ORD, validated 15 September 1993
- As commands accepted SOPMOD, demand for capabilities and quantities of items increased, funding did not. ORD was amended 4 times between 1994 and 1998

# RECENT BACKGROUND

- May 99, USCINCSOC/PEO-SP Directive to SOPMOD PMO to study and improve the M4A1 Carbine. Extraction Parts Set #1 fielded to Navy and Air Force in July 1999
- ORD Amendment 5, 29 October 1999, added MNVS, SPR, UPM, Soft and Hard Cases, and increased BOIP from 1961 kits to 2972 kits
- September 2000, Congressional Plus-up, \$5M in general procurement and \$0.9M earmarked for Grenade Launcher research.

# SOPMOD M4 Accessory Kit

## DESCRIPTION

### Capabilities Required:

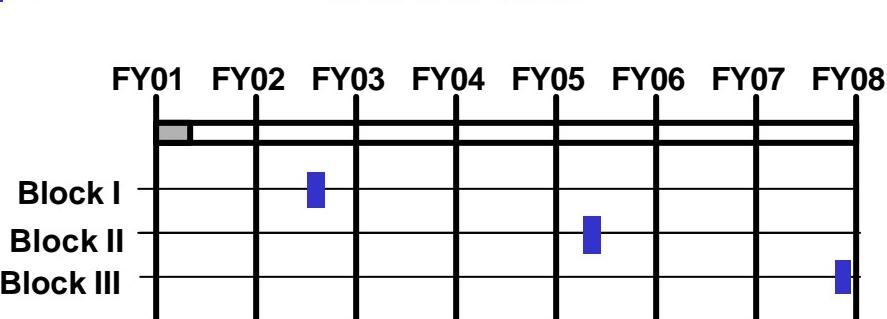

- *Standardized versatile weapons accessories*
- *Modular- meets needs across SOF mission scenarios*
- *Increased operator survivability and lethality by weapon improvements, enhanced target acquisition, signature suppression, and fire control*
- *Evolutionary Acquisition Block Upgrades*
  - *Block I*
  - *Block II*
  - *Block III and IV*

## DESCRIPTION

### Capabilities Provided:

- Modular active and passive day and night target acquisition, identification, and aiming for the M4A1 Carbine to 600 meters.
- M203, day passive aiming only, to 250 meters.
- Noise and flash signature reduction by 30 decibels
- Ergonomic accessories for CQB
- Mobility items

## IOC

## SCHEDULE

- Resource-constrained fielding quantities  
\$19.1 M Procurement shortfall to reach Full Operational Capability

# BLOCK II PLAN

FY 01      FY 02      FY 03      FY 04      FY 05      FY 06      FY 07

Grenade Launcher

Day-Night Sight Mount  
(GLDNSM)

Enhanced Combat  
Optical Sight (ECOS)

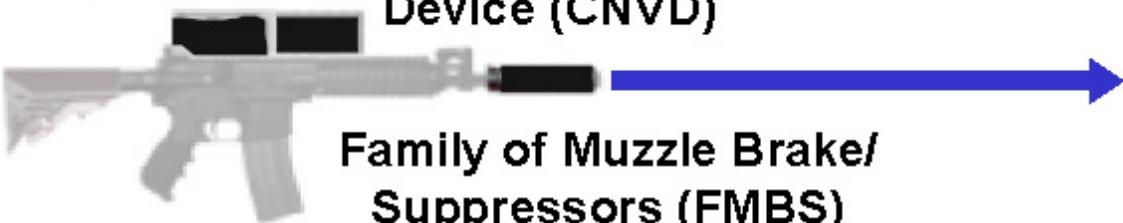

Clip-On Night Vision  
Device (CNVD)

M4A1 Extraction Parts Set

M4A1 Improved Magazine

M4A1 Improved Bolt

Family of Muzzle Brake/  
Suppressors (FMBS)

Enhanced Grenade  
Launcher Module (EGLM)

CQB Receiver (CQBR)

Special Purpose Receiver (SPR)

Many Block I Legacy Systems Remain In Service

## DESCRIPTION

### Capabilities Provided:

- Modular active and passive day and night target acquisition, identification, and aiming for the M4A1 Carbine to 800 meters. Integrated and combined systems to replace obsolete systems.
- Enhanced Grenade Launcher day and night passive and active aiming to 400 meters, with first round hit capability.
- Specialized upper receivers for long range and CQB with matching optics and noise and flash signature reduction
- Fixes the M4A1 Carbine within budget constraints and system limitations.

Commercial Fax: (812) 854-1044

\*SOOP-RV Funded

### Capabilities Provided:

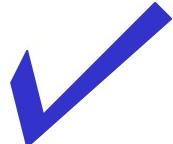

- *Enhanced Carbine, Light Sniper, CQB, and Automatic Rifle System, possibly with integrated laser and white-light systems*
- *Integrated range finding/ballistic solution (Objective)*
- *Over-The Beach Capable with standard ammunition*

### SCHEDULE

## EC/ISAR Alternatives:

- *Incremental Fixes to M4A1*
- **Block Upgrade M4A1**
  - *Incidental to EGLM/SPR/CQBR*
  - *ARDEC Study Upgrade*

- Re-compete the basic Carbine requirement
- Develop/compete requirement for electro-optic integrated carbine

**Blue= currently funded or partially funded by SOPMOD or ARDEC**

**Standard**

**CQB Variant**

**Light Sniper /  
Automatic Rifle  
Variant**
